## **Finding and understanding the case you have been given**

Read a case once and understand it. Lexis Advance Quicklaw® has built-in tools that make case law easier to understand. These tools will help you digest and analyze a large volume of information efficiently.

## START BY PULLING UP A CASE ON LEXIS ADVANCE QUICKLAW®

Enter the citation for your case in the Red Search Box. This will retrieve the document. Alternatively, enter the party names and select your case from the results list.

## TOOLS FOR UNDERSTANDING YOUR CASE AND FINDING RELATED AUTHORITY:

### 1 Get your bearings with a Case Summary

It's like a mini case brief. Read this first for a clear overview of the facts and holdings of the case.

Now you'll only need to read the case once to understand it, saving hours of time.

### 2 Save time with Copy Citation

The Copy Citation button allows you to quickly copy the citation for the case with or without all of the parallel citations. You can even create a hyperlink to link back to the document on Lexis Advance Quicklaw.

### 3 Quickly access essential Related Content

Use the About section to quickly access parts of the QuickCITE® case citator to determine the History of the Case, learn which cases have referred to this case using 'Citing Cases' and review related Commentary.

### 4 Alternatively, click the treatment signal beside the case name to go directly to the QuickCITE® case citator.
